Introduction to microcontroller programming using BASCOM	4
Short intro to microcontrollers	7
More lights!	9
Inputs and outputs	17
Let's play a tune	20
Let's connect our BASCOM test board to the PC	25
Displaying data on LED display	32
Displaying data with multiplexed LED displays	43
Connecting PC keyboard to microcontroller	49
Frequency counter with the AT89C2051 microcontroller	58
What to do when we run out of RAM?	87
BASCOM for advanced users: GOSUB and CALL	92
BASCOM for advanced users: BASCOM and assembler	98
BASCOM BASIC COMPILER for micro controllers of the 8051 family	103
Programmer PG302	106
Adapters for the PG302 programmer	115
BASCOM – Test board for the 8051 family	123
